

Nicholas Sala II
Personal Statement

My name is Nicholas Sala II and I have been a Certified Orthoptist working with my family in private practice at Pediatric Ophthalmology of Erie in my home town for about 5 years. In working at a family-owned private practice I have experienced the importance of a sound financial practices and a balanced budget. Since childhood I have been fascinated with foreign and domestic currencies. The treasury was always my favorite department within the Government.

I want to help the AACO thrive financially and will work hard as possible to make this happen. I truly value transparency, honesty, and community which are utterly important for any treasurer. I have had experience managing large sums of money in small events and would dedicate all of my attention to fulfilling my promises to the AACO. I am also very comfortable finding answers to questions I may not know myself and luckily have two good friends who are accountants and money managers. They would be willing to provide any assistance or advice that I may require.
